## GIOfriends

### Interactive plush toy with music and night light

GIOfriends will become your baby's friend from the first days of life and will be one for years to come. A glowing tummy can serve as a bedside lamp for a child who is afraid of the dark, who touches his tummy before falling asleep or after waking up, turning on the lamp.

The mechanism located in the tummy also plays the role of a watering box with 10 melodies. Specially selected noises will silence the child and contribute to a peaceful falling asleep. Thanks to the volume control function, we can adjust it to the needs of our child. In the clasp at the back, you can safely place the mechanism without worrying about it being removed by the toddler.

#### Noise:

- Sedative melody ● The sound of birds singing ● The sound of soothing pink noise
- The sound of the sea with a soosleep melody in the background ● The sound of the sea
- The sound of birds singing with a sootting melody in the background
- The sound of the river ● The sound of a quiet night
- The sound of soothing pink noise with a lullaby in the background
- The sound of a quiet night with a soothing melody in the background

# GIO sensor bell toys

## Balls support the process:

- muscle relaxation
- stimulation of circulation
- developing small motor skill
  - falling asleep
- teach to distinguish shapes

## The set of 6 balls includes:

- Ball dog
- Ball rabbit
- Elephant ball
- Giraffe ball
- Pig ball
- Hedgehog ball

GIO-961

## GIOsensor bell toys SENSORY BALLS IN DIFFERENT SHAPES

A set of 6 squeaking balls in the shape of different animals. Thanks to special profiled protrusions, they develop motor skills and children's imagination. The shapes of the animals encourage children to play and learn the names of the animals and colors.

## We support children's development

- Balls will perfectly stimulate the development of sensory integration of the child
- They are perfect for playing in the bath
- Catching balls improves the ability to grasp
- Older children can learn shapes and colors, thanks to which they develop their imagination
- High endurance will ensure safe fun even when trying: biting, jerking, hitting, tearing and crushing

GIO-960

## GIOsensor bath balls

### SENSORY BATH BALLS IN DIFFERENT SHAPES

A set of six sensory balls of different shapes and colors will support the proper development of the child. Each ball has a different texture, thanks to which it arouses the child's imagination and provides new sensory impressions. Sensory balls are great for baby massage. They are also designed for fun while bathing. Without fear, they can be immersed in water. The product was made of high-quality raw materials, so you do not have to worry that the child will take it in his mouth.

#### We support children's development

- Balls will perfectly stimulate the development of sensory integration of the child
- They are perfect for playing in the bath ● Catching balls improves the ability to grasp
- Older children can learn shapes and colors, thanks to which they develop their imagination
- High endurance will ensure safe fun even when trying: biting, jerking, hitting, tearing and crushing

#### The set of 6 balls includes:

- Ball with round recesses
- Ball with convex straps
- Striped ball
- Ball with long tabs-rollers
- Hedgehog ball - dense protrusions
- Hedgehog ball - rarer protrusions

#### Balls support the process:

- muscle relaxation
- stimulation of circulation
- developing small motor skill
- falling asleep
- teach to distinguish shapes

GIO-900PINK

## GIOfresh SNACK PLATE STICK & STAY

It's snack time! When the whole meal is eaten, a cute little fox appears at the bottom of the plate. "The Little Fox plate" makes eating fun and easy.

The GIOFresh's InnoGIO silicone plate and its non-slip surface will help every child to master the skill to eat on their own. Thanks to the silicone base, the plate sticks to smooth surfaces and does not move around on the table top. If you press the plate against a smooth surface, it will prevent the plate from ending up on the floor.

The plate is divided into 3 sections, which easily fits a 3-component meal for your child. The plate's division into 3 sections will be helpful for introducing new foods to your child's diet. You will effortlessly compose varied and interesting meals on the plate, which will encourage your little one to eat. Rounded inner edges will make scooping food easier. We've also considered the parents' comfort – the plate is microwave, freezer and dishwasher friendly. The round hole on the right side of the plate is useful for drying the product after washing or for storing it on a hook.

Made from the high-quality food grade silicone, it's safe to use and it doesn't emit any harmful substances. The unscented silicone doesn't impact the flavour of food served on the plate.

Material: **100% food grade silicone**

## GIOfresh OWL SNACK BOWL WITH LID

An exceptional and one-of-a-kind bowl designed for children over 6 months of age.

The Little Owl will make your child's meals a fun and easy experience. The bowl has a very convenient lid, which can transform the bowl into a container for storing food, as well as a snack bowl. The bowl has a special suction cup, thanks to which the bowl is attached firmly to the table top. If you press the bowl against a smooth surface, it doesn't move, which makes it easier for your child to eat the meal and keeps the bowl from falling onto the floor. Curved inner edges make scooping food easier. The handles on each side make carrying the bowl convenient. We've also considered the parent's comfort - the bowl is microwave, freezer and dishwasher friendly.

Made from high-quality food grade silicone, it is safe to use and it doesn't emit any harmful substances.

The unscented silicone doesn't impact the flavour of food served in the bowl. The bowl's appealing design will grab every child's attention and will encourage even the fussiest eaters to take a bite.

## GIOfresh SILICONE BIB

Safe and child-friendly bib from the GIOfresh series.

Ideal for starting the adventure with independent eating and for adding new foods to your baby's diet. The aesthetic pastel colours and the attractive, eye-catching design go hand in hand with the product's functionality. The bib is great at protecting the child's clothes from getting dirty during mealtime. The deep front pocket is great for catching food that didn't end up in the baby's mouth. Because the bib is light and flexible, it is a great fit for the child's body. The neckband has a four-step size adjustment to fit around baby's neck. This makes the bib universal for children of different age groups. The material used for the product is durable, soft and skin-friendly, easy to roll and fold. You can easily fasten and unfasten the bib thanks to its round buttons. Made from high-quality silicone safe for children. Easy to clean. Dishwasher-safe. Thanks to the bib's resistance to heat, you don't need to worry about spilling a hot meal on it.

Temperature resistance ranging from -20°C to 220°C; the product can be cleaned in boiling water. Flexible, hypo-allergenic and very resistant to damage.

# GIOfast

## GIO-515

### GIOfast MULTIFUNCTIONAL INFRARED NON-CONTACT THERMOMETER

The GIOfast non-contact thermometer is a certified medical device that enables accurate and safe body temperature measurement of adults and children. Its high safety is ensured by modern infrared detector technology. The contactless measurement method prevents the proliferation of viruses, bacteria and other microorganisms.

In addition to measuring body temperature (measurement on the forehead), the GIOfast thermometer can be used to measure the temperature of objects in the range of 0°C-100°C, including liquids and food. This is a particularly useful function for parents of young children; it allows them to measure the temperature of bath water, milk or soup without fear of scalding their baby. The profiled, V-shaped sensor inlet ensures better collection of the reflected infrared beam for more accurate measurement. An additional advantage of the device which facilitates monitoring of the patient's health is its built-in memory recording the last 30 measurements.

- Measures body or surface temperature
  - The GIO fast thermometer is a professional medical device
  - The thermometer has a memory of up to 30 measurements
  - Reads temperature in seconds
- Simple switching between °C and °F
- Ergonomic shape, One-button operation

Alarm signalling a reduced or elevated temperature.  
Automatic calibration.  
Sound signal at the beginning and end of the measurement.  
Low battery level indicator.  
Electronic display.

**Dimensions:** 142 x 37 mm

ID Number: **GIO-515**  
EAN Code: **5903317816744**

# GIO simply

## GIO-500

### GIO simply MULTIFUNCTIONAL NON-CONTACT FOREHEAD THERMOMETER

The GIO simply non-contact thermometer is a certified medical device for making accurate and safe body temperature measurements of adults and children. Its high safety is ensured by modern infrared detector technology.

The GIO simply thermometer is equipped with a technologically advanced infrared sensor that ensures high accuracy of measurements with an error tolerance of  $\pm 0.3^{\circ}\text{C}$ . Automatic calibration guarantees stability and repeatability of measurements.

With the GIO simply thermometer, in addition to body temperature (forehead measurement) you can also measure the surface temperature, including liquids and foods in the  $0^{\circ}\text{C}$ - $100^{\circ}\text{C}$  range.

This is a particularly useful function for parents of young children; it allows them to measure the temperature of bath water, milk or soup, without fear of scalding their baby.

- Measures body or surface temperature
  - The GIO simply thermometer is a professional medical device
- Easy switching between  $^{\circ}\text{C}$  and  $^{\circ}\text{F}$ 
  - Read temperature in seconds
    - Ergonomic shape
    - Mercury-free device
- Technologies used. Infrared system

The thermometer has a memory of up to 20 measurements

**Measurement time:**  
1 second

**Dimensions:**  
86 x 49 x 162 mm

**Weight:**  
106 g (without batteries)

ID Number: **GIO-500**  
EAN Code: **5903317816201**

## GIO-501 GIOflexi MIX

### GIOflexi Mix DIGITAL THERMOMETERS

The Flexi digital thermometer is a medical device. Provides fast, accurate temperature readings in the mouth, armpit and anus for both adults and children.

The advantage of the thermometer is that it remembers the last measured value. This is helpful in situations where you want to compare the temperature measurement. With the GIOflexi, we avoid the problem of broken glass or the mercury hazard.

ID Number: **GIO-501**  
EAN Code: **5904405021217**

## ORAL MEASUREMENT

Place the thermometer probe in one of the positions marked "✓" as shown in the figure on the right for approximately 1 minute. To increase the accuracy of the measurement, keep the lips close together for 5 minutes before taking the measurement. The valid temperature range for this method is 35.7°C – 37.3°C (96.3°F – 99.2°F).

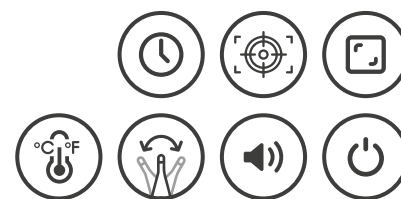

## RECTAL MEASUREMENT

Coat the thermometer sensor with petroleum jelly for easier insertion. Gently insert the sensor approximately one centimeter (less than half an inch) deep into the patient's rectum and hold it stationary for approximately 1.5 minutes. The valid temperature range for this method is 35.2°C – 36.7°C (95.4°F – 98.1°F).

- Fast measurement
- Precise measurement
- Reliable accuracy of +/- 0.1°C
  - Digital display
  - Flexible tip
- Temperature measurement range: 32°C-42.9°C (90°F-109.9°F)
  - Audible alarm
- One button operation
  - Auto off function

## MEASURING UNDER ARM

From a medical point of view, this method never guarantees precise measurement. Wipe your armpit with a dry towel. Place the thermometer sensor under your armpit and keep the arm pressed firmly against the side of your body for about 1.5 minutes. The valid temperature range for this method is 35.2°C – 36.7°C (95.4°F – 98.1°F)
